## LASHES & BROWS

Caring for your lashes & brows takes a plush turn at The White Door. You need to pay extra attention to these framing features as they hold the power to completely transform your face. At The White Door, we bring together the best techniques, highly-trained experts, and luxurious products to help you get perfect brows and lashes.

### BROW TINTING

7000

Want thicker and fuller brows? Try Brow Tinting at The White Door. This simple technique uses a semi-permanent dye that instantly gives you thicker yet natural-looking brows. The results last between six to eight weeks.

### LASH LIFTING

8500

Nine out of ten women have their lashes grow outward instead of upward. Combat this by treating your natural lashes to a perm that will help improve their appearance visually. Complete the ritual with tinting using the right hue, bid your mascara goodbye & reveal a near perfect set of lashes.

### LASH EXTENSIONS

POR

The easiest way to feel glamorous 24x7. Bid adieu to your mascara as our lash extensions help you create the look you want, with thicker, fuller and natural looking lashes. Opt for TWD's bespoke faux mink extensions that are soft, light and applied carefully by our in-house experts based on the shape of your eye.

### LASH REMOVAL

POR

Since lashes are very delicate, we recommend having your lash extensions removed only by a professional. Our experts combine precision with proper equipment to safely remove extensions without causing any damage to your natural lashes.

### LASHLINE

POR

Want to enhance your natural lash line and define your eyes? Try this unique treatment at The White Door, which is effectively a semi-permanent, ultra-fine eyeliner that gives your lash line and eyes the sharpest definition.

# LASHES & BROWS

## LASHES & BROWS

Caring for your lashes & brows takes a plush turn at The White Door. You need to pay extra attention to these framing features as they hold the power to completely transform your face. At The White Door, we bring together the best techniques, highly-trained experts, and luxurious products to help you get perfect brows and lashes.

### MICROBLADING (1ST SESSION)

**POR**

Also known as nanoblading, this is a semi-permanent makeup procedure that fills in your brows giving them a fuller appearance. The technique includes using a superfine needle to create fine hair-like strokes to give you natural looking brows that compliment your features. Choose from a wide range of shades at TWD that are specially curated for Indian skin tones.

### MICROBLADING, THE SECOND STEP

**POR**

The last step to brow perfection! A follow-up session is scheduled twelve to sixteen weeks after your first session. This step completes the treatment to give you the perfect brows.

### COLOUR BOOST

**POR**

Over time the pigment tends to fade, requiring you to upkeep your brows periodically. We recommend coming in for an annual colour boost session in order to maintain the character of your brows.

### BROW CORRECTION

**POR**

Whether it's a faded pigment, incorrect colour choice or previous work that you're simply unhappy with, leave it to our House of Talent artists to work their magic on your brows, making them the perfect canvas to give you brows that you'll want to flaunt!

### LIP BLUSH

**POR**

A semi-permanent makeup procedure, a Lip Blush treatment is the best way to enhance your lips making them look bright, adding a little tint. You can choose from a range of pigments best suited to your skin tone or choose to go for an entirely natural look too.
