BIOLOGIQUE RECHERCHE'S RADIANT GLOW

7500

Bid adieu to dull skin with our in-chair Radiant Glow Facial, by Biologique Recherche. The treatment begins with cleansing and toning your face, followed by an application of the famous Masque PIGM 400. Known for its brightening and antioxidant active ingredients, the Masque will leave you with an instantly enhanced complexion. With further application of Creme VIP O2 and Fluide VIP O2 serum, your skin is left feeling deeply hydrated, with a radiant glow.

BIOLOGIQUE RECHERCHE'S EYE CONTOURING TREATMENT

6000

Your go-to treatment for dull, puffy and tired eyes. Starting off with a cleanser and toner, this treatment involves using the Patches Défatigants Masque, with active ingredients that fight puffiness, dark circles and wrinkles. Its natural biocellulose support adjusts perfectly to the contour of your eyes, immediately de-puffing and smoothening out fine lines. We also use cool cryo sticks that further help with de-puffing and blood circulation, allowing for deeper penetration of the products.

FACE CONTOURING MASSAGE

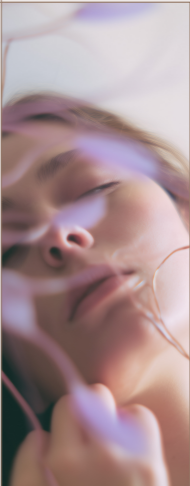

4000

A deeply firming, sculpting massage designed to lift, define, and depuff. Using precise pressure techniques and targeted movements, this treatment works deep within the facial muscles to release tension, reduce fluid retention, and visibly contour the face. Ideal before special occasions or as a reset after indulgence, it revives tired skin, enhances circulation, and restores a naturally lifted, refined glow. For optimal results, we recommend one session per week for 6 weeks.
