FOR EVENTS AND SPECIAL OCCASSIONS	2400

# WELLNESS RITUALS

Your body goes through a lot every day. Like AGEING HANDS, FATIGUED FEET and excessive tanning. There are also harmful toxins that enter the system topped with a whole lot of stress. Give your body a little break from it all with The White Door's wide range of lifestyle treatments designed to rejuvenate and reinvigorate your senses.

## STAY YOUTHFUL (Smooth. Restore. Renew.)

A rejuvenating ritual designed to smooth, restore, and visibly renew the skin. An indulgent oud gel scrub, infused with pure aloe vera and gentle bamboo exfoliation beads, delicately lifts away dead cells to reveal softer, refined skin.

This is followed by an anti-ageing cream enriched with rose and patchouli oils, blended with saffron extracts to deeply hydrate, firm, and revitalise mature skin. A nourishing rose and almond mask further enhances elasticity and radiance, while the calming benefits of Bulgarian rose oil restore balance and glow.

The ritual concludes with an SPF-infused lotion to protect and preserve your skin's renewed luminosity.

## TAME THE TAN (Detan. Brighten. Glow.)

A radiance-restoring ritual crafted to even tone and revive sun-stressed skin. The experience begins with an oud gel scrub powered by aloe vera and bamboo exfoliation to gently refine and smooth. A clarifying de-tan mud mask, enriched with French lavender and lime oils, works to reduce pigmentation, lighten sun tan, and restore clarity. Complemented by the soothing touch of Bulgarian rose oil, the ritual enhances skin brightness and softness.

Finished with an SPF lotion infused with notes of grapefruit, tea tree, and neroli oils—along with antioxidant-rich wheat germ and almond oils—this ritual leaves skin luminous, protected, and refreshed.

## FATIGUE FIX (Relieve. Recover. Revitalise.)

A deeply restorative ritual designed to ease fatigue and revive tired, overworked limbs. A refreshing oud gel scrub gently exfoliates while awakening the senses. Infused with the cooling power of peppermint oil, this ritual soothes aching muscles and reduces fatigue. A targeted pain-relief massage blend of wintergreen, marjoram, and rosemary oils works to release tension and improve circulation. A revitalising peppermint mask helps tighten the skin, neutralise odour, and leave a lasting freshness with subtle neroli notes. The experience is completed with an SPF lotion, leaving you feeling light, relaxed, and completely renewed.

# WELLNESS RITUALS

## POWER DETOX (Purify. Cleanse. Rebalance.)

A purifying ritual designed to deeply cleanse and restore equilibrium. Beginning with an oud gel scrub infused with peppermint, the skin is gently exfoliated while being refreshed and awakened.

A detoxifying mask draws out impurities and clears congestion, while tea tree oil—known for its antiseptic and antifungal properties—helps purify and protect the skin. The ritual is elevated with a detox patch to support toxin release and enhance overall clarity.

Finished with an SPF lotion, this treatment leaves skin clarified, balanced, and re-energised.

## MEDICATED CARE (Therapeutic)

An advanced care ritual tailored for sensitive and diabetic-friendly needs. A gentle callus-softening treatment smooths roughness without abrasion, followed by a mineral-rich seaweed exfoliation to refine and restore.

The cruelty-free, deeply hydrating massage formula replenishes moisture and comforts extremely dry skin, promoting softness and long-lasting relief. Designed with care and precision, this ritual leaves skin soothed, balanced, and impeccably nourished.
